Attn: [ ]  
Chief, FIM

**Assignment of Cryptonyms for PASTIME Operations**

REF: MOBA-10409

1. We have made a further investigation of the cryptonym nomenclature suggested by you in reference memo.
2. We are now informed by ZACADDY that the scheme you suggested will be suitable if each designation is prefixed by the letters PA for PASTIME. In other words, you may use a color for each base; this will then become PABlue, PARed, etc. Similarly, for each individual net, you may use PAPeach, PAPear, etc. The net functions may be designated, as you suggested, by numbers and the individuals and/or locations within the net by letters after the numbers.
3. We believe that this system will solve the problem we encountered in the conflict with ZACADDY nomenclature. Please inform us if you intend to put this system into effect.
